Thèses en cours au LPO-UBO

- Cambon, G. : Impact des fluctuations climatiques et des perturbations anthropiques à long termes sur l'écosystème Iroise Rade de Brest – thèse, financement région, directeur L. Memery.
- Dussin, R. : Couches limites latérales – thèse, financement SHOM, directeur A. Colin de Verdière.
- Estrade, P. : Dynamique des structures de méso-échelle dans l'upwelling du Benguela : influence de la variabilité spatio-temporelle du forçage par le vent, quantification en terme d'échange côte-large et de dispersion – thèse, directeur A. Colin de Verdière.
- Friocourt, Y. : Diagnostics lagrangiens des transferts de propriétés entre domaine côtier et domaine hauturier dans le Golfe de Gascogne – thèse, financement DGA, directeur B. Blanke.
- Levier, B. : Étude sur la pénétration des couches océaniques de surface et intermédiaires dans le Golfe de Gascogne : étude prospective et de modélisation – thèse, financement SHOM.
- Maugé, R. : Étude de la déformation des marées internes : aspects non-linéaires et hydrodynamiques – thèse, financement SHOM, directeur A. Colin de Verdière.
- Maze, G. : Interactions basse fréquence océan-atmosphère dans l'Océan Austral – thèse, financement MESR, directeur A. Colin de Verdière.
- Müller, H. : Circulation résiduelle lagrangienne en Mer d'Iroise – thèse, financement CIFRE, directeur B. Blanke.
- Pavec, M. : Etude de mécanismes d'instabilité paramétrique dans un courant côtier, influence sur le détachement de tourbillons – thèse, financement DGA, directeur X. Carton.
- Sévellec, F. : Stabilité et variabilité de la circulation océanique grande échelle – thèse, financement MESR, directeur A. Colin de Verdière.

DGA : Délégation Générale pour l'Armement

MESR : Ministère de l'Education nationale, de l'Enseignement Supérieur et de la Recherche

SHOM : Service Hydrographique et Océanographique de la Marine
